### SPORT NOTES GOLF FOOTBALL BASEBALL TENNIS

#### Balloch and Jenkins Undefeated In Second Day's Play

The racquets of Balloch and Jenkins boomed their song of victory at the end of Tuesday's play in the provincial tennis tournament being played this week at the Banff Springs hotel courts. Neither player had been extended in the men's open singles, winning their matches easily. Jenkins is teamed with Dick Hines in the men's doubles and won the opening game against a Calgary-Edmonton combination 6-0, 6-0. Balloch and Henry King had to go three sets before advancing to the second round of the men's doubles.

Latest results Tuesday found Balloch in the third round of the men's singles, Jenkins in the second round of the same event, and both boys and their partners in the second round of the men's doubles. Jenkins is also competing in the Ferris cup and in the second round of that competition as well as being in the final event, a competition won by Balloch, one, and Shone, twice, in the three years of its existence.

Balloch and Jenkins were defeated in the men's doubles in Wednesday's play.

#### JACK AINSWORTH LEAVES COLEMAN

Jack Ainsworth, a member of last year's Canadians, boarded a train for Calgary last week, where he stated he had been offered a position with a guaranteed salary in return for his services as a hockey player.

Ainsworth came from Lethbridge to Coleman last year and proved himself a tower of strength on the local hockey team. The year previous he played for Lethbridge Maple Leafs, but for some reason failed to show the class that he was capable of for the local aggregation. Providing he keeps in condition, he should have no difficulty in getting his place on the Calgary lineup, and fans will have the pleasure of watching him in action when Calgary plays its scheduled engagements at the local arena.

#### CUBS AND 150's SPLIT FOOTBALL DOUBLES-HEADER

Playing at the local ball diamond on Sunday, Coleman Cubs and Fernie 150's split a two-game football series. Behind the steady pitching of Tony Fergotti, the Cubs ran roughshod over their opponents to win 11 to 0 in the first game. The evening game saw a more even contest, and the score was tied at 3-3 at the end of nine innings. Fernie had enough punch left to score three runs in the

#### "THE GIRL OF THE GOLDEN WEST"

tenth to win 6 to 2.

It is expected August 15 will see the start of the provincial play-offs in both the ladies and men's softball divisions. Angela "Ever Faithful" Gentile will sponsor the Cubs in the play-offs. The team's first opposition is expected to be Medicine Hat. The West Coleman Co-Eds expect to meet Lethbridge Coronets in a home-and-home game series. Unlike the Cubs, the Co-Eds have money available for travelling.

#### OLDS HOCKEY TEAM IN PRECARIOUS CONDITION

Olds hockey officials are entirely dependent on the agricultural conditions of their area for placing a worthy hockey team on the ice this winter to oppose other senior aggregations from various parts of the province. So far hail has hit the wheat fields in that district on four occasions, causing much damage. The club depends on farmers for liberal donations to finance the team, and if the hail causes any more damage, the team is going to be in a precarious position, as the farmers can't give if they themselves have nothing.

#### SCOTTISH FOOTBALL STARTS

The Old Country football season will start with a bang in two weeks time, when the two Scottish leagues get into action. Fifers this year will have an added interest in the first division, as Raith Rovers will be members. The Raith, though not overly strong, and have no trouble in defeating Rangers or Celtic during the season make their appearance at Kircaldy.

#### COLEMAN HOMING SOCIETY

RACE RESULTS  
The 440-mile race, flown on June 23, by Southern Alberta club, also the 650-mile race on July 8, were both won by birds of the Calgary Homing Club.

Last year the Coleman Homing Society's birds won both events.

The annual Dr. R. K. Lillie cup race and Crow's Nest Pass championship, with prizes donated by W. Bell, J. S. D'Appollonia, Coleman Hotel and Empire Hotel, flown from Waterways on July 7, resulted as follows: 1st, A. Biegun; 2nd, T. Cornill; 3rd, W. Pryde; 4th, A. Zur. Biegun's and Cornill's birds completed the 500-mile flight the same day as liberated, and were clocked in with only 17 seconds between first and second birds. A little more alertness on Cornill's part in trapping would have given his bird the championship, won last year by F. Beddington's bird. Congratulations, Andy!

On July 31st, the first young bird's race was flown from Nanton, 60 miles airline.

Results of open race: 1st, T. Cornill, 10:55:59; 2nd, W. Pryde, 10:56:09; 3rd, F. Beddington, 10:56:47.

Results of the nomination race: 1st, W. Pryde, 10:56:09; 2nd, M. Nemmett, 10:56:14; 3rd, F. Beddington, 10:57:31.

Next race from Calgary, August 6th or 7th.

Not one entry was received by Messrs. Barrington and Garrett in their attempt to stage a boxing card in Coleman. Closing date for entries was on Monday. The promoters had been promised several entries by a number of Coleman youths and some from Hillebert, but they backed out at the last minute.

#### DEANNA DURBIN AT COLE'S THEATRE

Deanna Durbin, Canada's gift to Hollywood, plays the leading role in "Mad About Music," being played at Cole's theatre at Bellevue this week. Deanna's work in this picture is reported to excel her work in "Three Wise Girls" and "One Hundred Men and a Girl," which drew such lavish praise from local theatre patrons.

At the Palace theatre this week end, Edward G. Robinson will play the festive role in "The Last Gangster." Robinson is a dynamic impersonator of the modern gangster, is ably supported by James Stewart and Rose Stradner. News and novelty shorts will round out the programme.

### Mrs. Wm. Milley Died on Friday Evening

Rev. H. J. Bevan Paid Tribute to Deceased's Church Work; Many Attended Funeral on Monday.

Death laid its hand on one of Coleman's most respected citizens on Friday evening when Mrs. Elizabeth Milley, 45 years, failed to rally from an operation that morning for the removal of a goitre and passed away at 11:15 a.m.

Born in Crossgates, Fifehire, Scotland, the daughter of the late Mr. and Mrs. James Muir, she came to Coleman nineteen years ago, where she married William H. Milley three years later. Deceased will be sadly missed in St. Paul's United church and circles, being a staunch member and worker in all branches of church endeavor. Up to her death she was secretary of St. Paul's Ladies' Aid. She was also a former member of the Eastern Star and Rebekah lodges.

Left to mourn her passing, beside her husband, are a thirteen-year-old son, Billy; her sister, Mrs. Archie Beveridge, of Coleman, and a brother, Alex. of Alexo. Her father, James Muir, predeceased her several years ago.

The funeral was held on Monday, the cortege being from Mrs. Beveridge's home to St. Paul's United church, and the large number of flowers gave mute evidence of the high esteem in which she was held by her neighbors and friends. Rev. H. J. Bevan conducted the services.

Mrs. Bevan spoke of her work for the church and paid tribute to her earnestness in church affairs. Two hymns, sung at the family's request, were "Jesus, Savior, Pilot Me" and "All The Way My Savior Leads Me." Pallbearers were friends of the family and included Joe Emmerson, Jack Nash, Tom McInnes, Robert Bell, Alex. Easton and John Kimesar. Rev. Bevan also gave a short graveside address.

#### CARD OF THANKS

The Milley and Beveridge families, of Coleman, wish to thank all those who were so kind to them during their recent sad bereavement, the passing of a wife and mother, Mrs. W. H. Milley.

Special thanks are extended to all those who loaned cars and to the following for floral tributes:

The family; Mr. and Mrs. A. Muir and boys, Alexo, Alberta; Mr. and Mrs. S. Milley and family, Coleman; Mr. and Mrs. A. Milley and Reggie, Vancouver; St. Paul's Ladies' Aid of Coleman; Minerva Chapter, O.E.S., No. 41; the International staff, Coleman Boy Scouts; Mr. and Mrs. J. Nash and family, Coleman; Mr. and Mrs. A. Easton and family, Coleman; Mr. and Mrs. C. J. Tompkins and family, Blairmore; Mr. and Mrs. J. J. McIntyre and family, Coleman; Mr. and Mrs. George Robertson, Alexo. Mr. and Mrs. Alex. Fife, Mr. and Mrs. James Fairhurst, Mr. and Mrs. J. L. Lonsbury, Mr. and Mrs. Wm. Bell and family, Mr. and Mrs. J. Rogers and Emma, Mr. and Mrs. Odell, Mr. and Mrs. J. Allen, Mr. and Mrs. Geo. Hope, Mr. and Mrs. VanDuse, Mr. and Mrs. H. Hillary and family, Mr. and Mrs. Hugh Dunlop, Mr. and Mrs. S. Krewzy, Mr. and Mrs. John Jackson and family, Mr. and Mrs. A. F. Short, Mr. and Mrs. Geo. Kellogg, Mr. and Mrs. J. S. D'Appollonia and family, Mr. and Mrs. W. Cooke, Mr. and Mrs. J. Trevis and Violet, Mr. and Mrs. Peter Smith, Mr. and Mrs. David Young and family, Mr. and Mrs. R. Morris, Mr. and Mrs. W. L. Burrows, Mr. and Mrs. R. Gillies and family, Mr. and Mrs. W. L. Rippon and family, Mr. and Mrs. J. O. C. McDonald, Coleman; Mr. and Mrs. J. Johnson, Vancouver; Dr. and Mrs. K. Lillie, Blairmore.

Letters of Sympathy—Mr. and Mrs. James Glendenning, Eleanor Neilson, Mr. and Mrs. George Ford, Mr. and Mrs. Archie Anderson and Billy, the Walker family, Mr. and Mrs. I. Neilson and family, Minerva Chapter No. 41, O.E.S.; Mr. and Mrs. Wm. Antel and family, Mr. and Mrs. J. B. Wood, Mr. and Mrs. J. Park, Mr. and Mrs. Fred Cox, Mrs. Hunter, Mrs. Geo. Hope and Connie, Mr. and Mrs. A. Dewar, Mr. and Mrs. J. C. Richards,

#### IMPORTANT NOTICE

The Board of Trustees of the Coleman School District No. 1216, wish to advise anyone with arrears of taxes in the Coleman School District, that if the arrears are not paid in full, or arrangements made for part payment, immediately, action will be taken to collect same.

W. FRASER,  
Chairman, Board of Trustees.

### Bellevue Horticultural Society Seek Entries From Coleman

It has been stated on many occasions that Coleman citizens during the past few years have taken more pride in their home surroundings, with the result that many beautiful gardens and lawns are to be seen in abundance. Descriptions on the beauty of several flower gardens have been given to Iris Hayson, secretary of the Bellevue Horticultural Society, and that energetic gentleman is making it his endeavor to make a number of gardeners to exhibit their flowers at the society's show to be held at Bellevue on Labor Day, Sept. 5.

Mr. Hayson's biggest obstacle in getting local gardeners to exhibit their products is the fact that they have only recently taken up the hobby of flower gardening and suffer from an inferiority complex, always pointing to someone else's garden as better than their own.

Coleman flower gardens, states Mr. Hayson, are second to none in The Pass, and if the gardeners would only be so generous to make a show of their plants and flowers this year, the thrill and interest of seeing them on display at the big show would be a big factor in having them show their flowers in other years.

Iris is a Coleman boy, and since it is his first year as secretary, he is endeavoring to make the show a bigger success than those which have gone before, and it is for that reason he wants Coleman gardeners to get behind him and exhibit their flowers. This year the membership fee has been reduced to one dollar, the exhibit cost is 15 cents each. Judges will be brought from Calgary and Edmonton for the show.

#### School Board Notes

The regular meeting of Coleman school board was held in the board room Tuesday evening. Present were Chairman Fraser, Trustees Sharp, Fleming and Chamberlain. Absent, Trustee Greenhalgh.

Minutes of the previous meeting read and adopted.

Penders for transporting thirteen children from the Sentinel district to Coleman schools were received from two parties. Sam Moore, with a tender of \$225 for one round trip, was awarded the contract.

A letter from Mrs. James Pivell (nee Emma Antel) was filed.

A letter asking the resignation of Mrs. Pivell from the teaching staff will be sent her by the board.

Two requests by Miss B. L. Dunlop were granted.

An insurance policy renewed by A. M. Morrison April 2, 1938, on the contents of the old cottage schools, will be cancelled.

Cash statement studied and passed. Bills ordered for payment included: Coleman Journal \$3.50, Frank Abousaify 1.04.

Meeting adjourned at 9:30 p.m.

#### NO LAKE DANCE SATURDAY

Alex. Morency, proprietor of the Crow's Nest Lake dance pavilion, has cancelled his dance for this Saturday evening in favor of the dance being held at the hockey club carnival. Alex is one of the Pass' keenest hockey fans and showed his sportsmanship in cancelling his dance in the cause of sport. His action is appreciated by Coleman hockey executive and they express many thanks.

Mr. and Mrs. H. T. Halliwell, Mr. and Mrs. H. H. Gardner, Mr. Scott Campbell and family, Mr. and Mrs. Geo. Morgan, Mr. E. V. Wood, A. J. Brown and family, Coleman; Mr. and Mrs. R. Easton, Calgary; Mrs. Geo. Dickson, Vancouver; Miss E. Beveridge, Vancouver; Mrs. C. Emmerson, Bellevue; Mrs. Evans, Calgary; Mrs. Haines, Calgary.

### Flower Booth Will Have Exhibits From All Pass Towns--Miners Buy \$500 Worth of Tickets on Major Prizes--- Floor Show to be Big Attraction.

Preparations are practically completed for staging the hockey club carnival on Saturday and Monday. Many new attractions are being staged, two of which are expected to create interest among patrons. They are a "Mouse-Mouse" booth, on the view of a live mouse will play the pre-dominating part as it is released from the centre of the table and races into one of the many holes cut in the booth. All holes are numbered and the hole chosen by the mouse for its escape will net some lucky person a prize. The booth is under the supervision of Art Fraser. The second major attraction is the flower booth, in which bouquets from a number of local gardens, as well as from Bellevue, will be won by the turn of the wheel. Mrs. Harry Gardner is in charge and sends the following message to all flower gardeners:

"A display of cut flowers from local gardens will be held in connection with the Coleman hockey club carnival on August 6 and 8. Every garden in Coleman, no matter how small, should be represented by a carefully arranged bouquet of cut flowers. Please accept this as a hearty invitation to contribute. All contributions will be received at the Coleman Crystal arena in the afternoons of August 6 and 8, from 4 to 6 o'clock. Attach a card to your bouquet bearing your name and address and the names of flowers used. Only by the hearty co-operation of every flower grower in Coleman can we expect this little flower show to be a success. Please do your bit."

The miners, as is their custom, got

behind the club executive's efforts and bought approximately \$500 worth of tickets on the major prizes. A number of tickets have been sold to parties outside Coleman, so that a profit will be netted on the major prizes. All prizes, with the exception of dolls, have been purchased in town, the merchants being only too willing to co-operate in this worthy enterprise.

Floor shows will be added attractions each evening. President Harry Gardner has received the solemn promise of over twenty business men that they will be present at a certain hour each evening and put on an act that will rival any yet put on by either the Ritz or Marx Brothers. They will be a scream, so be sure and not miss them.

Secretary Fred Gervard, who has been working night and day in an effort to make the carnival a success, had a stroke of luck in gaining the services of a fortune teller. Fred sends his message to the public of the Crow's Nest Pass:

"The Coleman hockey club executive have been very fortunate in obtaining the services of an internationally famous fortune teller, who is on his way east to fulfill engagements, and will be in attendance at the carnival Saturday night. While it is not known whether or not he will be able to remain over for Monday night, it is hoped that arrangements can be made for him to do so.

"This will be a wonderful opportunity for all Pass residents to get a glimpse into the future."

### Lethbridge S. A. Silver Band to Visit Coleman

Next Saturday and Sunday, August 6 and 7, the Lethbridge S. A. silver band will be visiting Coleman and Pass towns in the interests of the local corps.

The band is comprised of about 22 members and is under the leadership of bandmaster L. Tulloch. Captain and Mrs. Arthur Smith, officers in charge of the Lethbridge corps, will be accompanying the band and a musical programme for Coleman people will be given at 8 p.m. Saturday in the S. A. hall.

On Sunday morning the band will visit Hillebert and Bellevue, and in the afternoon will play in Blairmore. Sunday evening it will again be in Coleman and will furnish the music for the public service at 7:30. Friends and visitors are invited to this service.

Captain Hewitt is in charge of the

### HOUSE DESTROYED BY FIRE MONDAY EVENING

A four-roomed house, owned by Alex. Beck, situated on what is popularly known as Beck township, was destroyed by fire on Monday evening at 8 o'clock. The tenants, Mr. and Mrs. Fritz, had occupied the house on Sunday, but had left that night for Michel, where Mr. Fritz is employed at the Michel pit. No one was in the house Monday and the doors were locked. The fire is reported to have started inside the house and had a good start before being discovered. Only a small insurance policy was carried on the house itself, and it is thought no insurance was carried on its contents.

Journal ads. are business-getters.

## Vanishing Wealth

Whatever may be thought of their proposal that the administration of the natural resources of the country revert to the Dominion government, the statements of the Federation of Ontario Naturalists, in their brief to the Royal Commission on Dominion-Provincial relations may well give pause for reflection and serious consideration.

Whether or not one agrees that the remedy for existing conditions lies in their principal recommendation, namely that of vesting the control of the resources in the Dominion government, the country at large owes a debt to the Federation for its timely note of alarm which was sounded when the organization drew to the Commission's attention, in no uncertain terms, the prodigality with which the resources are being dissipated for immediate gain with little or no thought for anything like commensurate measures to ensure their conservation or replacement.

One has only to read the brief to be strongly impressed with the necessity for sterner measures to ensure conservation of this great heritage if the present generation is not to be deprived of many of the advantages, economic and aesthetic, which the ownership of such resources brings and if posterity is not to be entirely stripped.

### Startling Losses

That great wastage of a precious inheritance has not only been allowed in the past but is still being practised to the detriment, present and future, of the entire country, is brought home with realistic force. The evidence is writ large on the pages of the brief and the statements cannot well be refuted.

Figures quoted indicate appalling losses to the country as a result of wasteful methods of agriculture and lumbering, resulting in depletion of water supply, seasonal floodings with resultant loss of moisture when most needed, followed by soil erosion supplemented by further losses to valuable stands of timber from forest fires.

The forest area turned in Canada during 1936 totalled over three million acres, or 4,500 square miles. When added to this is the large amount of timber which is being cut down annually for the lumbering industry, the pulpwood industry, for fuel and for other purposes with comparatively no provision for replacement, one may well wonder how much longer these valuable resources will continue to be available and what the effect such continued losses are going to have on the future revenue of the Dominion, on the welfare of that basic industry—agriculture and, in general, on the happiness and prosperity of the people.

### Impoverishing The Soil

"It should be remembered," very aptly says the Federation, "that repeated fires throughout large areas of Canada where the soil is thin cause its destruction and make the possibility of future crops of trees on such areas a remote one for hundreds of years to come; the enormous tracts of almost bare rock to be found in many parts of the Dominion are mute evidence of the washing or blowing away of such soil which took centuries to form and which once bore a forest of permanent revenue-producing possibilities."

Not only does the extravagant denudation of the forest resources result in a serious loss to agriculture through impoverishment of the soil, and the drying up of the water supply, but it also spells disappearance of other valuable resources and the desiccation of industries upon which they are based. With forest coverage and food sources gone and running water depleted, the rapid disappearance of wild life such as the fur-bearing animals, once a source of great revenue; the wild fowl, a source of attraction to visitors and native sportsmen and the fish, also a great attraction for tourists and the basis of another of the country's industries, are but a matter of time, and for some of them, not a very long time.

"In recent years," again quoting the Federation's brief, "the plight of some of our wildlife has become desperate. This is especially true in the case of waterfowl which, depleted by overhunting, have been reduced to very low numbers through drought in their nesting grounds on the prairies. The Eskimo curlew, Labrador duck, passenger pigeon and great auk are now totally extinct, and fear for the continued existence of several species of wildfowl, for the muskox and the moose are widely depressed."

It might also be pointed out that the chestnut, one of the most beautiful, useful and valuable trees is practically extinct in 15 years and the white pine in 50 years is predicted by authorities.

### What Others Say

What authorities in other countries think of our prodigality and wasteful methods may be summarized in a statement made in 1923 by Professor Troup, head of the Imperial Forestry Institute at Oxford, England, who is well conversant with forestry measures adopted in his own and other European countries, when he said:

"I was frankly amazed, as were many of my colleagues, at the extent to which the forest had been destroyed with little or no attempt at regeneration. Whoever may have been responsible for this state of affairs in the past, the Dominion and provincial governments cannot now plead that they have not had what was due to what will happen if this policy continues. I am in full agreement as to the necessity for research into soil problems and silviculture in relation to logging practice to secure natural regeneration and sustained yield."

In the light of the statements made to the Royal Commission, the undisputed figures in support of the contentions made and the evidence of authorities, national and international, it would seem that something more ought to be done about it than is now being done.

### Saddest Man In Tokyo

Citizens Claim Admiral Okeda Has Degraded The Emperor

Admiral Okeda, who was Prime Minister of Japan two years ago, is the saddest man in Tokyo today. . . In 1936 a group of Japanese, intent upon a coup d'état, entered Okeda's home and murdered the man they found there. Emperor Hirohito thereupon publicly lamented the Admiral's death. The next day the true story was unearthed—that Okeda had escaped assassination and that his brother-in-law was the one slain. Despite his good fortune, Admiral Okeda has lost caste with Japan's citizens, who insist that he should have committed hara-kari—because he had degraded the Emperor. . . he degraded him in returning to Japan thereby becoming living testimony to the fact that the Emperor had uttered an untruth in lamenting Okeda's death.

### Modern Alpine Hut

Constructed to keep out both heat and cold, a hut to shelter mountaineers at night has just been opened near Chamoni, France. It will accommodate 20 people. Constructed of duralumin coated inside with asbestos and furnished with asbestos bedding, the hut is fireproof as well as temperature-proof.

At Olund, an idle off the coast of Sweden, may be seen prehistoric stone age remains, huge rocks carved in the form of Viking ships replete with benches for the rowers.

### Death Of Old Timer

Mrs. Wright Was First White Child Born On B.C. Mainland

The first white child born on the mainland of British Columbia is dead. Eighty years old, Mrs. Alice Rowbottom Wright, died after failing to recover from a heart attack suffered several months ago.

It was in 1858 that Mrs. Wright was born at Sapperton, at the time a tiny settlement five miles east of West Westminster, B.C. Her birth occurred just two months after her parents arrived from England. Her father, George William Rowbottom, and mother came to British Columbia with Col. Moody and his Sappers. When she was 17 years old, she married John W. Wright and left for the La Placche where he kept an inn in the heart of the Cariboo gold country. In later years she was known to hundreds of prospectors for her kindness.

### Score Is Even

Ten years ago Chester E. Hea's automobile struck O. J. Scott at a street intersection in Gas City, Indiana. Scott's leg was broken. A short time ago Scott's automobile struck Hea and knocked him off his bicycle. Hea's leg was broken.

Butterflies taste with their legs, which are 1,600 times as sensitive as the human tongue.

Since the year 1591, all the Popes of the Roman Catholic Church have been Italians.

**"TURN RIGHT TO OGDEN'S"**

When you get rolling with this extra fragrant Fine Cut, you're on the right track to smoking pleasure. There are no stops or detours to enjoy either—when you roll your own with OGDEN'S, the cigarette tobacco that has everything a smoker could ask for. You'll waste doubly sure of smoothers, happier rolling if you always choose the best papers "Chantecler" or "Vogue".

**OGDEN'S FINE CUT**

**African Bushmen**

Stone Age Men Would Use Poison Arrows To Obtain Food

Unless they are allowed to use poisoned arrows to shoot game, Africa's Stone Age men, the bushmen of the Kalahari desert, will die out from sheer starvation.

This is the contention of members of the bushmen preservation committee, on which the British government, the South Africa government, the Southwest Africa administration and the University of South Africa are represented. The committee was formed as a result of the interest created when a group of the "little brown people" went to Cape Town last year to pay homage at the coronation.

The trouble is that there is an international convention to the preservation of Africa's fauna and flora, one clause of which forbids the use of poison for hunting.

"If they are to be stopped from using poisoned arrows, then they must be provided with firearms if they are not to die of starvation, and to give them firearms would be extremely inadvisable," Senator Boydell, a member of the committee, declares.

Sensor Boydell contends that the bushmen could not possibly use enough poison to make any real difference to the fauna of Africa, and hopes that the committee may be able to secure a special reserve for them, where they can live as they have done for 16,000 years.

**The Poultry Flock**

Maintain Sanitary Conditions In Order To Obtain Best Results

Hygiene and sanitation are factors as important to the poultry flock as good stock, clean water, proper feed and range, states W. T. Scott, Head Poultryman, Dominion Experimental Station, Harrow, Ont. Failure to maintain clean and sanitary surroundings is frequently the weak spot in poultry management. Cleanliness is essential, as high mortality and reduced egg production follow disease and impaired vitality. To ensure healthy surroundings remove droppings daily and scatter an absorbent such as land plaster over the dropping boards. Renew litter before it becomes too dirty and supply clean water in clean vessels; disease may spread rapidly through the medium of dirty water or containers.

At least once a year, with a hoe and broom, scrape and sweep clean the floor and walls of the poultry house, removing dust and cobwebs, and if running water is available use the hose at high pressure. Paint roosts and supports with a good coal tar disinfectant, full strength, and spray frequently with solution of the same product according to the instructions of the manufacturer. The range also demands its share of precaution. Gravel or sandy loam provide the best sanitary conditions and is easily worked with a one-horse plough. All ranges and yards should be ploughed and cropped yearly and seeded with a quick-growing crop. Sudan grass is palatable and greatly resists. To ensure a good supply, it is well to cut Sudan when about six inches high before allowing the birds access to the yards or range. Ideal sanitary conditions are supplied with a two or three year rotation; a hoed crop intervening in the three year rotation provides additional protection against parasites that flourish in contaminated soil.

**Strange Water Bug**

Able To Make Starch And Fat In Huge Quantities

Discovery that one small, barely visible water bug, the water bug, in 25 days, more starch and fat than the whole United States could eat, was described at the Marine Biological Laboratory, summer workshop of United States scientists.

The animal, a cicada, a flagellate, is termed from the fact that he swims by lashing with fine, hair-like arms called flagella. Scientists got interested in him because, unlike virtually all other living things, he is able to make starch and fat without light. Starch and fat are two of the three essential foods. Protein is the other.

The amount chitin can make, said Dr. S. O. Mast, of Johns Hopkins University, is theoretically prodigious.

"For example," Dr. Mast wrote in the Collecting Net, a scientific journal, "in one of our experiments, which was started with a single individual, and continued 25 days, if all the individuals had been kept cultured, there would have been at the end of the experiment enough to reach a total volume of 612,000,000,000 cubic metres. The starch in this mass would have been approximately 19,000,000,000,000 cubic metres and the fat 6,000,000,000 cubic metres.

"This is sufficient to supply every individual in the United States with some 70 tons of starch and 20 tons of fat."

**Buddhist Monk**

Treibtsch-Lincoln Wants To Return To His Native Hungary

Hungarian authorities were reported weighing the demand for legal re-entry into his native Hungary of Ignatius Timothy Treibtsch-Lincoln, the one-time international agitator and spy and now a Buddhist monk called Chao Kung, "Light of the World."

Treibtsch-Lincoln, 60, wearing the simple habit of a Buddhist missionary, was somewhere in hiding—on an equity strange figure, calling herself Tao La, garbed in a Buddhist gown and leather sandals, brought him back to the memory of Hungarian passport officials in June by interfering in his behalf and asking if he might return to his native land.

He was tired from a life of adventure, she said, and wanted to spend the rest of his days in pious contemplation at the tomb of his ancestors.

Treibtsch-Lincoln in 1934 made a spectacular journey across Canada, accompanied by six nuns and four monks, all Buddhists. They had intended to establish a Buddhist monastery in Germany. But after sailing from Halifax, the party was refused permission to land in England and was returned to Canada.

Most fish that swim deep in ocean depths are red, but the pale light at that depth makes them appear gray.

**British Train Coming**

Coronation Scot Express Will Visit United States In January

The London Midland and Scottish Railway's Coronation Scot express train which will visit the United States will be shipped from England next January, it is announced.

The train, consisting of streamlined locomotive and eight coaches, will enter the United States via Baltimore. On arrival the engine and train will be assembled in the Baltimore shops of the Baltimore and Ohio Railroad.

Before going on exhibition at the New York World's Fair at the end of April, the Coronation Scot will make a tour of American railroads embracing 38 cities and towns and covering in all 3,121 miles. During the tour, the train will travel under its own power throughout and will be manned by an L.M.S. crew.

The Coronation Scot celebrated its "first birthday" in July, having been introduced a year ago as the first streamlined train between London and Glasgow, covering 401½ miles in 6½ hours.

Streamlined "Coronation" type locomotives which maintain the service hold the British speed record of 114 m.p.h.

The forthcoming American tour of the train follows the successful visit of the L.M.S. Royal Scot to America in 1933, when it was inspected by over 3,000,000 people.

**Keeping Tab**

Germany Introduces A Family Book To Keep Records Of Families

Under a new law, which has just come into force, Germany has abolished the marriage register.

Instead, "family book" for each family in the reich is to be kept, which will show births, marriages and deaths and be a complete record for all the members of the family.

It is hoped thus to "stimulate interest in the family, show members they are connecting links in a long chain of generations and to awaken a feeling of responsibility for the maintenance of the family and of the German nation."

When couples marry in future, new leaves to cover their marital classics, relatives, domicile, etc., will be inserted in the "family book".

Of the marriage will be entered in the same pages until such time as they grow up and marry, when a new series of pages will be started for them.

The new law also applies to Germans abroad and it is hoped that within 30 years, as children grow up and marry, exact details of every German family will be entered up.

**Attacked By Wild Bees**

Six Camel-Riders In India Were Stung To Death

Six Delhi, India, camel-riders of a passing caravan were stung to death by a swarm of bees in Surattagar. According to the story of the only survivor, the caravan which had halted near the jungle, was attacked by bees shortly after the men had lighted a fire to cook their food, just before the hives. The victims, who ran in all directions, were pursued by the bees, which stung them to death in half an hour. The survivor ran off, leaving the camels to take care of themselves.

Molier was asked why in some country the king may assume the crown when 14 years old, but cannot marry until he is 18.

"Because it is more difficult to rule a baby than a kingdom," was the reply.

Another thing that slows up building is the realization that anything you build now will look queer by 1950.

**Refused To Sell**

Paris Custodian Keeps Blotter Used By King George

A British offer of 10,000 francs (about \$275) for the blotter King George VI used after he placed his signature in the Golden Book of the Arch of Triumph was turned down by the chief custodian of the monument, the newspaper Paris-Sol reported. "I do not traffic in such souvenirs," the custodian was quoted as saying. The blotter was said to contain an excellent reverse imprint of the Royal signature.

**Knows Where To Go**

Dog Finds A Veterinary To Have Ears Treated

Paddy, Chesapeake Bay dog, owned by Mr. and Mrs. M. D. McLean of Calgary, knows when to visit the veterinary. Taken by his owners to a veterinary some time ago to have painful ear cankers dressed, "he now goes alone every time his ears hurt," said Mrs. McLean. "The treatment is painful but Paddy seems to know he must endure it patiently if his ears are to stop hurting him."

"You are a naughty boy, John, fighting that nice boy, Eric. He's such a nice face!"

"Not now!" said John.

**RAILWAY OFFICIAL RECEIVES PROMOTION**

**NORMAN B. WALTON**

formerly chief of transportation, Canadian National Railway, who has been promoted to Vice-President in charge of Operation, Maintenance and Construction, with headquarters in Montreal. Mr. Walton is one of the best known railway executives in the West and was formerly General Superintendent, Manitoba District and later General Superintendent of Transportation, Western Lines. He was born in Palmerston, Ont., and commenced his railway career in 1900 as clerk in Toronto with the Grand Trunk Railway.

**SELECTED RECIPES**

**SPICED RELISH AND COLD MEAT PLATE**

6 cloves  
2½ cups water  
1 package Lemon Jell-O  
½ teaspoon salt  
1½ cups India relish  
1 teaspoon drained horseradish  
Boil cloves in water three minutes. Remove cloves. Dissolve Jell-O in one pint of this hot liquid. Add salt. Chill. When slightly thickened, fold in relish and horseradish. Turn into half-size individual molds. Chill until firm. Unmold and cut in cubes. Serves 12.

Prepare luncheon plate of sliced liverwurst or cold meat, lettuce, bread sandwiches or potato skins, and a Jell-O mold, unmolded on crisp lettuce. Garnish plate with green pepper rings and stuffed olives.

**CUCUMBER RELISH**

1 package Lime Jell-O  
1½ cups hot water  
¼ cup vinegar  
½ teaspoon salt  
Dash of pepper  
½ teaspoon scraped onion  
2 cups drained, chopped cucumber  
Dissolve Jell-O in hot water. Add vinegar and ¼ teaspoon salt. Chill. Add ¼ teaspoon salt, pepper, and onion to cucumber. When Jell-O is slightly thickened, fold in cucumber mixture. Turn into half-size individual molds. Chill until firm. Unmold. Makes 12 half-size molds.

**Shakespeare Up-To-Date**

Television Audience Heard Original Words But Saw Modern Costumes

Shakespeare's Julius Caesar was televised in a version showing the men in lounge suits, uniforms and one blazer and white flannels.

The television audience in London saw felt hats, revolvers, gas masks, akyscrapers and dugouts, but heard the original words as the bard wrote them.

"Spare a copper for a poor out-of-work."

"Here is a shilling—call at my shop to-morrow and I will find you work."

"No, sir, the shilling will be enough—I am not greedy."

## Russians Repulsed In Clash With Japs On Siberian Border

Tokyo. — A Japanese army communiqué said Soviet Russian troops twice counter-attacked Changkufeng and Shachofeng where they earlier were dislodged and were repulsed after hours of fighting.

The Russians left 50 bodies on the field, and Japanese took two more tanks and two field pieces, the army communiqué said. The Soviet forces covered both their attacks with artillery fire.

The attacks began early Sunday, the Japanese war office said, when Japanese forces succeeded at dawn in wresting control from the Russians of the strategic hilltop at Changkufeng near the junction of the borders of Japanese-protected Manchoukuo, Korea and Russian Siberia.

The war office said a "terrible fight" took place when the hill, which the Russians occupied and began fortifying July 11, was seized.

Korean army headquarters estimated the Russians suffered 200 casualties and lost considerable equipment. Japanese were reported to have incurred "some casualties."

The war office said large forces were deployed on both sides of the ill-defined border with the Soviet troops bombarding one frontier point with heavy artillery concealed in the hills.

The area is close to the junction of the boundaries of Manchoukuo, Russian Siberia and Japanese Korea, southwest of Vladivostok.

Russians have held it for nearly three weeks and Moscow rejected reported Japanese and Manchoukuo protests that they were on Manchoukuo territory.

Word of the clash came as a complete surprise as announcement both in Tokyo and Moscow had indicated

that, despite recurring incidents, only diplomatic means would be used to settle the difference.

Emergency meetings of Japanese government leaders reflected the seriousness with which the situation was taken in Tokyo.

A war office spokesman gave the following account of the border action:

"Two days ago Soviet troops occupied Shachofeng, approximately 1,000 yards north of Changkufeng hill, and began fortifying it as they had done at Changkufeng.

"They clashed with border guards but were repulsed and then returned with reinforcements. The Japanese countered and a terrible fight ensued at Shachofeng and Changkufeng.

"The Russians used mechanized units, including tanks and heavy artillery. Mt. Changkufeng was retaken at 4:40 a.m. and Shachofeng at 6 a.m."

Scores of clashes have occurred on the Siberian-Manchoukuo border since Japan's conquest of China's Manchurian provinces in 1931-33, brought her troops face to face with those of Russia.

One of the most serious occurred in June-July, 1937, when gunboats and troops were in conflict over the sandy islands of Sennutu and Boisho in the Amur river.

After five days of tension, however, an agreement for mutual evacuation of the disputed area was reached to allow discussions on demarcation of the frontier.

The current differences arose July 11 when Soviet forces moved six miles into Manchoukuo territory and started construction of fortifications.

## Riots In Rangoon

Buddhists Claim Publication Of Book By Mohammed Was Insult

Rangoon, Burma. — Six persons were killed and 100 injured in savage street fighting between Burmese Buddhists and Indian Moslems.

Shops were looted and burned, and prisoners fled the jail as the violence raged. Armored cars patrolled the streets.

A tense situation developed after police had stood by when 40 were hurt in disorders, following publication of a book by a Mohammedan allegedly insulting Buddhism, in the crowded bazaar area.

Troops of the King's Own Yorkshire Light Infantry were called out to assist police. Machine guns were posted in various places. All business houses were closed. Traffic was paralyzed and a big fire was started.

## Savings Deposits Lover

Ottawa. — A slight falling off in notice or savings deposits was shown in the monthly statement of Canadian chartered banks as of June 30 as compared with the previous month. Demand or current deposits were increased. Both call and current loans in Canada showed increases.

## Need Ship Subsidies

Sir Edward Beatty Says Britain Will Have To Change Policy

Quebec. — Trans-Pacific service of the Canadian-Australasian line will be continued, but to remove the threat of foreign competition Britain will have to change shipbuilding policy, Sir Edward Beatty, president of the Canadian Pacific Steamships, said, on his arrival here in the liner Empress of Britain.

Sir Edward, back from England after discussing the building of new tonnage, said current shipbuilding costs "are considerably higher and we considered it unwise of build at the present time."

There was no danger, he said, the Canadian-Australasian line, operating between Vancouver and the Antipodes and partly Canadian Pacific-owned, would be discontinued, but he admitted British shipping on the Pacific was threatened by foreign competition.

"The United States has found it necessary to subsidize its shipping," the steamship head said. "Japan's ships are heavily subsidized. It appears to me that Britain will have to change its policy from the days when it was the only great shipbuilding and shipping nation and either subsidize its builders or steamship companies or both."

## Wheat Carry-Over

Expected To Be The Smallest Than Has Been Since 1925

Ottawa. — Canada will have the smallest carryover of wheat when the crop year ends that it has had since 1925. In fact, it may be below the figure of that year.

The official announcement of the carry-over by the Dominion bureau of statistics will not be made until Aug. 12, but a forecast by the bureau estimated this year's carry-over at around 26,000,000 bushels.

The visible wheat supply figures made public by the bureau gave the total of 21,773,554 bushels. This does not include the wheat in the farmers' hands, which is believed to be very low.

On July 31, 1925, the carry-over was 26,482,696 bushels. On July 31, 1927, it was up to 50,585,588 and in 1929, following the big crop in 1928, it was 104,383,221. It reached the peak in 1933 of 211,740,118. It dropped in 1934 and in 1935 was up to 203,273,016. Since then it has been steadily reduced until last year it was 32,739,852.

## Reaches New Record

Recruiting For British Army Has Shown Record Increase

London. — Leslie Hore-Belisha, secretary for war, told the House of Commons that army recruiting had reached record heights in the second quarter of this year, with 11,663 men volunteering for service.

This represented a record for the April-May-June period. The army will be only 20,000 men below its planned strength by next March if recruiting continues at this speed. Medical examinations showed 10,235 of the applicants fit for army services, compared to the 5,517 accepted for the second quarter last year.

## Deposits Of Mercury

Lillooet, B.C. — Extensive new mercury deposits are reported to have been uncovered at Moba, about 20 miles northeast of here on the north fork of the Bridge river.

## PILOTED PLANE

Capt. C. T. Bennett, clever Imperial Airways pilot, who brought the British pick-a-back plane, the "Mercury," over the Atlantic Ocean non-stop to Montreal, to complete another chapter in aviation history. Bucking head winds all the way the "Mercury" was only two hours behind schedule when she landed on the St. Lawrence.

## Marketing Act Upheld

Privy Council Decides On Validity Of B.C. Measure

London. — The judicial committee of the Privy Council upheld the validity of the British Columbia Natural Products Marketing Act.

Dismissing the appeal of a group of independent dairy men from a finding of the British Columbia court of appeal, their lordships declared it was apparent the legislation in question is confined to regulating transactions that take place wholly within the province and therefore are within the sovereign powers granted the legislature in that respect by section 92 of the British North America Act.

The appellants were ordered to pay all costs.

In its judgment the judicial committee did not accept the view that natural products produced as defined in the act were confined to natural products produced in British Columbia.

"There is no such restriction in the act and a limited construction would probably cause difficulty if it were sought at some future time to operate with a small Dominion scheme," the judgment said.

## Helps Forest Rangers

Rancher Earl Takes Turn Fighting Fires In B.C.

Exeter, B.C. — Lord Martin Cecil, Canadian ranching member of a famous English family, took regular shift with forest rangers and railway section men to defend this central British Columbia country from forest fires.

Cecil, son of the Marquess of Exeter and brother of Lord Burghley, M.P., British athlete, was in the fire lines day and night shifts for several days.

He has ranching here for the past eight years on 50,000 acres of land with 2,000 head of cattle, and operates a guest ranch at this Pacific Eastern Railway point. The locality is also known as 100-mile house.

## CORRIGAN GETS HIS PLANE BACK

The Irish government authorities, acclaiming Douglas Corrigan for his "wrong direction" Atlantic hop from New York to Dublin, have returned the daredevil's plane to him. Corrigan, 31-year-old California airplane mechanic, is shown with the plane in Dublin in this radiophoto.

## British Parliament Has Adjourned After A Strenuous Session

London. — Parliament adjourned after a strenuous session, with a possibility it may recess before the appointed date of Nov. 1 if conditions warrant ratification of the Anglo-Italian treaty.

"Only a corporal's guard of members attended as the house flew from subject to subject, including some sharp exchanges between the government and the opposition over the bombing of British ships in Spanish waters."

Oliver Stanley, president of the board of trade, announced that the complex negotiations leading toward the Anglo-American trade treaty were being expedited "to obtain a treaty fair to both parties resulting in the expansion of trade between the two nations and may be the first step towards the expansion of trade elsewhere in the world as well."

Foreign affairs dominated the session just closed, the commons having 25 debates and the lords 10 on international matters. It is estimated the government answered 5,000 questions on a multitude of subjects in this category.

Among the important events of the session were the Anglo-Italian treaty, signed April 16 but unratified, a settlement of the question of intervention in the Spanish war; and the Anglo-German treaty with regard to Austrian debts, which included an undertaking to negotiate better trade relations between the two countries.

The Anglo-Elite treaty was another feature of the session which pointed the way toward improved inter-governmental relations.

In the domestic field legislation was enacted relating to the coal and iron industries, civil aviation, air raid precautions and holidays with pay.

The budget raised the income tax to five shillings six pence in the pound, the highest in many years. The government authorized the purchase of supplies of wheat, sugar and whale oil, war time raw materials. All through the fabric of the session program was the government's vast rearmament program.

As the house wound up its business the government was under fire for the Spanish insurrection attack on the British freighter, Delwyn.

The government stand by the view expressed by the prime minister on July 13, which was that His Majesty's government have made it plain that they cannot accept as legitimate the deliberate bombing by aircraft of merchant ships," declared Richard Butler, under-secretary for foreign affairs, in replying to opposition questions.

"Reports hitherto received suggested that the attack on the vessel was deliberate," Mr. Butler said. "If on further investigation this view is confirmed, the British government

will at once request the commission which is being formed to investigate such cases to examine without delay the circumstances of this attack."

The prime minister was drawn into the Spanish exchange when Mr. Butler declared sinking of the Killyn, sister ship to the Delwyn, during a raid on Valencia harbor appeared to be deliberate.

Clement Attlee, leader of the opposition, referred to the fact a Danish non-intervention observer was killed aboard the Killyn and pressed a series of questions regarding protection for such officers.

"The right honorable gentleman must not talk as though this was a deliberate attempt to kill an observation officer," Mr. Chamberlain replied. "An observation officer has been killed while his duties brought him in close proximity to an objective, whatever the objective was that was being aimed at."

More Labor questions followed the government's disclosure that H.M.S. Hero stood by without retaliating when insurgent planes sank the Killyn at Gandia.

Colonel John Llewellyn, chief lord of the admiralty, said the navy had been given instructions "to give full protection to British ships outside territorial waters and not to give such protection within territorial waters."

## Taking No Action

Government Feels Toronto Alderman's Remarks About Hitler Not Important

Ottawa. — Remarks attributed some weeks ago to Alderman William Croft of Toronto reflecting upon Adolf Hitler, German chancellor, and to which exception was taken by

Erich Windels, German consul general here, "reflected more on the alderman than anyone else," Prime Minister Mackenzie King said.

Questioned as to what action had been taken through diplomatic channels over the incident the prime minister said the government had taken the stand it would not "make a mountain out of a molehill."

The prime minister said in the realm of international affairs "nothing is to be gained by unpleasantness." (On June 23, Croft visited the Toronto zoo and when he reached the beavers' pool he remarked the "only thing I'd put in there would be Hitler.")

## Asks For Information

Victoria. — Lord Tweedmouth, governor-general, now in England, called the British Columbia government, expressing "regret" at damage caused by the 100,000-acre fire at Campbell river on the east coast of Vancouver Island, and asking that he be informed of details of the blaze.

## Great Britain Taking A Firmer Stand On Foreign Policy

London. — Great Britain's foreign policy is taking on a firmer quality.

While insistence is still laid on the theme of conciliation as a way to peace, evidence is not wanting that Prime Minister Chamberlain would resist strongly any challenge to vital British interests.

In his review of foreign affairs before the House of Commons, Mr. Chamberlain said: "Though we seek peace, it would be a mistake to suppose we are willing to sacrifice British honor and vital British interests for peace."

Despite pleas that the Anglo-Italian agreement should be brought into effect without delay, the prime minister declines to abandon the British prerequisite—settlement of the Spanish question, which in effect means performance as well as the promise to withdraw foreign troops from Spain.

Rapid expansion of the British air force, with strengthening of ties between Great Britain and France, has impressed Berlin deeply.

Chancellor Hitler, although the report lacks official confirmation—is said to be throwing out feelers for an air pact under which the chief nations of Europe would limit their sky armadas.

Great Britain and Germany already have a naval agreement. Under it German naval expansion is limited to

35 per cent. of British naval strength.

The Spanish situation has clarified somewhat with the unconditional acceptance by the Barcelona government of the proposal for a British commission to investigate the bombing of open towns and civilian populations.

General Franco, insurgent chieftain, has accepted the proposal in principle, asking for widened application of the commission's investigations to include assassinations and other atrocities. The insurgent counter-proposals and reservations are under consideration.

At the same time, London and Burgos officials are working out the details of a scheme under which one British and one insurgent naval officer would investigate charges of deliberate bombing of British merchant ships in Spanish waters.

A disquieting note was sounded in Berlin as Nazi newspapers opened new attacks on the Czechs.

The press was critical not only of the new Czech nationality statute itself, but also of the Czech government for permitting details of the statute to leak out.

The semi-official Diplomatische Korrespondenz, which reflects the views of the German foreign office, roundly declares that except for a few concessions the Czech proposals in the statute give no hope of satisfactory agreement.

## New Ministers To Be Appointed To France And Belgium

Ottawa. — While Prime Minister Mackenzie King subscribes to the policy that Canada's diplomatic service should offer careers with the object of appointment to high offices abroad it is not expected the foreign minister posts to be disposed of this autumn will be filled by promotion.

New ministers are to be sent to France and Brussels, and probably to Japan before the end of the present year, and a legation is to be opened at The Hague in Holland with the minister to Belgium serving there part time.

During the debate on external affairs last May Hon. R. B. Bennett, leader of the opposition, urged the government to adopt the principle of promoting experienced legation secretaries to the higher posts so that young men of the right type would be induced to enter the diplomatic service.

Mr. Mackenzie King said he was quite in agreement with the opposition leader but observed that Canada's foreign service was small and

the responsibilities of a minister great.

While it would be desirable to promote legation secretaries to high posts, the prime minister said, "with world conditions what they are to-day a great responsibility rests upon a government with respect to the men to be appointed to the post of minister abroad."

Mr. Bennett, at that time, referred to a report that Justice W. F. A. Turgeon of the Saskatchewan appeal court, was to be appointed as minister either to France or Belgium.

He declared such an appointment would be undesirable in view of Justice Turgeon's two years' absence from the bench while engaged in "political work." (Mr. Turgeon was chairman of two government commissions inquiring into the textile industry and grain marketing.)

Mr. Mackenzie King replied it was "only natural that he (Justice Turgeon) should be thought of . . . because of exceptional judgment and ability" and not as a reward for political services.

## MAKING CANADA

A BETTER PLACE IN WHICH TO LIVE AND WORK  
A Series of Letters from Distinguished Canadians on Vital  
Problems Affecting the Future Welfare of Canada  
Specially Written for Canadian Weekly Newspapers Association

Dear Mr. Editor:

Your inquiry how can weekly  
newspapers best help to "Make Can-  
ada a Better Place in Which to Live  
and Work" is most timely. The same  
problems must be in everybody's  
mind. I feel sure that the 700 weekly  
newspapers can help solve them. My  
suggestions are:

(1) Print the policy or platform of  
your paper in a conspicuous place  
each week . . . Keep banging away  
at the measures you advocate. The  
human mind is supposed to get things  
easily. I believe this is an error.

(2) Abraham Lincoln read more  
country weeklies than any public man.  
He knew and liked the common  
sense of the country people. Country  
people are just as sensible today. En-  
courage them to write their opinions  
on current issues . . . publish the  
letters either with or without their  
names according as they are confi-  
dential or not.

(3) Stress "Self-Reliance" as a  
strong human attribute. Print sto-  
ries of people who endure hardships  
and triumph over them instead of go-  
ing on relief where someone else  
has to struggle for them. True sto-  
ries of this kind furnish heroines in  
the home with good material to hand  
to the gentry of respectable loafers  
that is growing at a great rate.

(4) In respect to country and city  
people . . . treat them to have a  
tender regard one for the other . . .  
try to influence industry to establish  
itself in smaller centres rather than  
in the very large cities . . . commend  
a broader viewpoint in looking at  
matters that pertain to the various  
provinces. If the people of Canada  
are persuaded to divide against one  
another it will be a great pity.

(5) When are we going to wake up  
to the tax situation? Mr. Carlisle  
and others are putting it plainly.  
Can't the weekly papers do anything?  
Sir Wilfred Laurier told us we could  
have a railway of our own and the  
"sum-total" cost would be \$10,000,  
000. The deficit is now \$50,000,000.  
Every Year. If a woman were  
talked into buying a set of kitchen  
ware for \$13.00 and she found that  
it put her \$50.00 a year in debt . . .  
what would she do? She would figure  
a simple way out, wouldn't she?  
Governments and individuals are  
living beyond their means. Many are

not balancing their budgets. This en-  
courages dishonesty. Many are buy-  
ing things and promising to pay.  
They do not keep their promises.  
They make liars out of themselves  
with the baker, butcher and grocer.  
Can the weekly newspapers stem the  
tide?

Do your readers realize there are  
25,000 governing bodies of one kind  
and another in Canada . . . when  
are the citizens going to cut the num-  
ber down? Can you help do it?

(6) There is a great gap between  
the extremely wealthy and the very  
poor. Providing both are honest the  
gap should be narrowed. It can be  
accomplished by serious social study,  
gradual reforms and reasonable leg-  
islation. Can you help?

(7) Every man and woman in Can-

HAROLD M. GULLY

ada should be made to behave . . .  
The Law is one way out. The other  
is the Press. People fear publicity  
more than they fear the devil. You  
can help immeasurably by publishing  
the names of persons who conduct  
themselves in a creditable way, no  
matter in what pursuit . . . You can  
help still more by publishing any  
truthful facts concerning malpractices  
. . . cheats . . . thieves . . . liars  
. . . hypocrites . . . loafers . . . dead  
beats . . . and pussy-footers.

Most sincerely,

HAROLD M. GULLY,  
Vice-President,  
Silverwoods Toronto Dairy Ltd.

## SEES MILLION DOLLAR FIRE

Mr. and Mrs. James Russell, Jim  
and Isabel, had the unique experience  
while vacationing at Vancouver of  
watching a million-dollar fire. Sitting  
in Stanley Park last week, watch-  
ing the kiddies swim, they noticed  
the sun become suddenly blotted out  
with smoke and upon investigating  
found the well-known C.P.R. pier D  
was on fire. Mr. Russell states that  
in no time the pier was enveloped in  
a mass of flame, with fire-fighting  
ships making puny efforts to combat  
the conflagration. Fire still raged  
the following day, the pier being a  
total loss, with no clue to its origin.  
Mr. and Mrs. Russell returned home  
on Monday.

## DEATH OF MRS. COCCIOLOE

The death occurred at Coleman  
miners' hospital on Friday of Mrs.  
Pasquale Coccioleone, 60 years. Mrs.  
Coccioleone had been in ill health for  
some time.

Born in Italy, Mrs. Coccioleone, with  
her late husband, came to Canada  
thirty-six years ago, residing at Fer-  
nie. She came to Coleman thirty  
years ago and resided here until her  
death.

The funeral was held Sunday after-  
noon at Holy Ghost church, Rev. Fr.  
Dunbar conducting the burial service.  
Relatives, friends and members of the  
Italian society were in attendance.  
Interment was made in the Catholic  
cemetery.

## CITIZENS' BAND RE-ORGANIZES

A re-organization meeting of the  
Coleman citizens' band was held in  
the council chamber last week. Of-  
ficers were president V. Collagrosso,  
secretary W. Jones, bandmaster L.  
Hulbert, assistant bandmaster Fred  
Beddington. Practices are being held  
at regular intervals, with a concert  
in the near future.

Find your buyers and sellers  
through Journal advertising. It pays  
big dividends.

## LOOK at the RECORD OF CASE THRESHERS AND COMBINES

"My Case thresher has threshed every year since 1904, and if  
it continues as it has in the past, it will do me for the rest of my  
farming days," writes W. L. Burnham of Saskatchewan. "I have  
found it very light running, easy to operate, and it always did  
a good clean job."  
Ever since 1842 Case threshers have been famous for simplicity,  
easy operation, clean work, light running, long life and low upkeep.  
Case combines have the same sturdy quality, many of the same fea-  
tures, and similar records of superiority. No wonder there are so  
many Case threshers and combines in use throughout the dominion.  
Don't take chances of delays or wasted grain with an old, worn  
thresher or an ordinary combine. Go to your Case dealer now and  
see how much time, money, and power you can save with a modern  
Case machine. Whether you prefer a thresher or a combine, Case  
gives you a close-combing all-steel cylinder and concaves . . . non-  
clogging steel-finger grates . . . steel-grid straw rack . . . air-lift clean-  
ing . . . simpler adjustments for all crops and conditions.

## IT COSTS LESS TO FARM WITH CASE

See Norman E. Macaulay, "The In-  
surance Man," for all forms of insur-  
ance. (adv.) to live and work.

## Your Eyesight Is a Precious Asset--Guard It Well!

IT IS POOR ECONOMY to try your  
eyesight by not having sufficient  
light. It produces headaches and eye-  
strain which lead to permanent im-  
pairment of sight.

SEE that your home has plenty of  
light. Also stores can give imposing  
night displays in their windows by the  
use of more light. Make your win-  
dows pay dividends by well lighted  
window displays.

LIGHT RATES have been reduced  
substantially in the past few years.

### REG. JONES RETURNS FROM ENGLAND

Reg. Jones, who has been spending a three months' vacation visiting relatives and friends in England and Wales, returned home on Friday morning, crossing the Atlantic on the "Australia." While crossing, his boat passed the "Empress of Britain" in mid-ocean.

He states conditions in England are booming, building particularly being very active. Visiting in Wales, he found that conditions were poor in comparison with England, the mining centres being very quiet.

He spent a week in London and saw the trooping of the colors on the King's birthday, and also the changing of the guard. Being a sportsman at heart, he took the opportunity of visiting Wimbledon and saw the Wightman cup matches. He saw Helen Wills Moody, Alice Marble, Kay Stammers and Joan Ingram in action and states that they play a better game than the average men players. Kain prevented him from witnessing one of the test matches between Australia and England, the game being postponed that day.

Reg. started work on Monday as time-keeper at International. Adam Wilson, who had been relieving him, going back to his position as hostman.

### REDUCTION IN PRICES TO SAVE CONSUMERS \$5,500,000

On the basis of 1937 quantity consumption, users of petroleum products on the prairies will save \$5,500,000 this year by reason of reductions in prices of light petroleum products, since the Turner Valley was established as an important oil field. With prospects of good crops, there will be even larger savings incident to larger consumption of products.

The saving is even more substantial when one considers that the history of an oil field in the making is frequently one of costly disturbance. Adequate transportation facilities have to be provided. Other sources of supply have to be displaced. For instance, a few years ago, when the Texas oil field was being developed, there was a ruinous disorder. An important natural resource was wasted. Investors lost heavily and all interests suffered.

In striking contrast to such experiences have been developments in the Turner Valley. Co-operation of producers, pipe lines, railways, and refineries, has resulted in an orderly development. Both producers, and to a greater extent consumers, have reaped the benefits. Producers have benefitted by a price for crude oil which has been adequate to encourage a steady development of the field. Consumers have benefitted by substantially lower prices for petroleum products. [Ext.]

### C.P.R. Agent Arrives

Mr. W. L. Taylor, of Leduc, arrived this morning to take over the position of C. P. R. agent at the local depot, succeeding Chas. W. McKinnon who departed recently for Maple Creek. Mr. C. Totten, who has been relieving agent, has left for his office at Lethbridge.

### Local News

Harry Thomas, of Vancouver, is spending a months vacation with his parents.

Mr. and Mrs. Stewart Milley and family have moved into their new home on Third street.

R. F. Barnes left Sunday for a vacation at Cadomin and Edmonton.

Miss Pearl Fischer, of Spring Point, is the guest of Mr. and Mrs. Tom Holstead.

Mr. and Mrs. Wilfred Dutil and daughter spent a few days at Calgary during the week.

Miss Kate Dow, of Lethbridge, is the guest of Mr. and Mrs. A. Y. Dow.

Jim Allan is visiting his uncle and aunt, Mr. and Mrs. A. L. Menzies, at Leslieville.

Mr. and Mrs. Tom Jones, of Black Diamond, Wash., are the guests of Mr. and Mrs. James Hadley.

Will the person who borrowed the Community hall key at The Journal office please return same immediately.

Lenore Morgan, of Pincher Creek, is visiting her grandparents, Mr. and Mrs. Wm. Hayson, for a few days.

Mr. and Mrs. James Gamble and family returned this week from a vacation spent at Vancouver.

Zak's Meat Market is the latest business house to shine with a new coat of paint. The work was done by Snowdon Bros.

Mr. and Mrs. Wm. Cousins are residing at Banff where Mr. Cousins is receiving treatment for an injury received at the mine some time ago.

Mrs. and Mrs. D. Davies and daughters, of Edmonton, and Mr. G. F. Story are visiting Mr. and Mrs. Fred Cox, on their way to Arrow Lakes.

Miss Bessie L. Dunlop, high school teacher and who has been spending part of her vacation at Edmonton, has moved to Tyvan, Sask., where she is the guest of her parents.

The Misses Ruth and Wilma Freeman, of Edmonton, were the guests of Wilma Halliwell over the weekend. They are enroute to Portland and Vancouver.

Mrs. Alex. Dunlop and son of Vancouver arrived in town on Monday and will be the guests of Mrs. Dunlop's parents, Mr. and Mrs. Wm. Antrobus, for a month.

Word of the death of her father, Mr. Wm. Walker, of Lancashire, England, was received by Mrs. Robert Lloyd on Saturday last. The death occurred on Saturday, July 16.

Bert Pryde left on Sunday for Brownlee, Sask., where he will join his wife and son who have been the guests of Mr. and Mrs. Shepherdson for the past month.

Mr. and Mrs. Alex. Muir, accompanied by Mrs. Geo. Robertson, left Monday evening for Alexo. Mr. Muir was called to Coleman by the death of his sister, Mrs. Wm. Milley.

Peter Smith and son Ian are spending a week fishing and taking life easy at the South Forks. They caught eight fish half an hour after they arrived and sent them home. Mrs. Smith visited them on Wednesday.

Mr. and Mrs. Percy Smith, of Lethbridge, spent the week-end the guests of Mr. and Mrs. W. B. Steeves. This was their first meeting in ten years. The visitors left on Sunday for Creston, where they have a fruit ranch.

Mrs. Bush, of Vancouver, was the guest of her brother, Mr. George Morgan, and Mrs. Morgan for two weeks. She left on Sunday for a visit at Creston.

Mr. and Mrs. A. A. Fraser have as their guest Mr. Fraser's brother from Edmonton. Art has taken a few days from work to show his brother all the big fishing holes.

Harry Llewellyn, C.P.R. yardmaster at Lethbridge, and Mrs. Crewe and daughter Dorothy, and Betty Campbell visited at the home of I. Llewellyn last week.

The K. of P. hall, next The Journal office, is being renovated this week to accommodate a new business house. Work is in charge of Sartoris Lumber Co.

Mrs. I. James was hostess at a shower held at her home on Friday evening in honor of Mrs. Leslie Beech, (nee Muriel Jackson). Four tables of whist were in play, prize winners being Mrs. Geo. Jenkins and Mrs. R. Gillies. The bride was presented with many lovely gifts for which she thanked her guests. The prize-winners also presented the bride with their prizes.

WORLD HAPPENINGS  
BRIEFLY TOLD

George S. Black, district agriculturist at Grand Prairie, has been appointed livestock promoter for the Alberta department of agriculture.

A sudden outbreak of infantile paralysis spread consternation throughout the quiet country community of Haleside, Essex, England.

The first Turkish submarine to be built in Germany since the Great War was launched at the Krupp shipyards in Kiel, in the presence of Turkish officials.

Mexican regional schools, whose socialistic educational program has invited attacks by armed rural bands, have received government authority to install arms.

Arthur Bartholomew English, the almost legendary "Arthur Ellis" who was Canada's hangman, was buried in a lonely little plot in a cemetery on the slope of the mountain around which Montreal is built.

A manifesto calling upon engineers, shipbuilders and ship owners to further the use of native coal rather than imported oil in British ships was made public by the British Coal Company.

Forty thousand Belgium war veterans cheered their royal family at the unveiling of a memorial to the late King Albert on the banks of the River Yser. The \$100,000 cost of the memorial was borne entirely by Belgium war veterans.

A cat that was at the Battle of Vimy Ridge in France, has died at Cowthill, Suffolk, England, aged 23 years. It belonged to W. Folkard, a game-keeper, whose son, then in France, found it on the battlefield and brought it home.

M. I. "Mickey" Ryan, northern transportation official, reported that freight movement to date this year over the portage between Fort Fitzgerald, Alta., and Fort Smith, N.W.T., western gateway to the North West Territories, has been the heaviest in history.

## Opinion On Art

Walter Disney In The New York Times Magazine

"I have no favorite painters. I don't know anything about painting. Oh, yes, I go to exhibitions and I envy the men who can paint a figure or a landscape. But I think there must be something more in a picture than the literal rendering of an object. If that were all that is necessary a camera would be a better artist than Rembrandt."

"A man must have something to say, he must see things in a new and individual way. He must be stirred by the play of light on flesh or by the glow of the sun on trees and he must be able to put some of the emotion he feels onto his canvas. If he succeeds in doing this, then he is an artist. But, unless he can draw, unless he knows the grammar of his art, I do not believe he is equipped to express his emotion."

## Pygmies Make Jumping Record

Four Inches Above Olympic Mark States Missionary From Belgian Congo

Economic depression is unknown to Central Africa pygmies, stated Rev. Howard Bigelow, on his return to Calgary after nine years in the Belgian Congo as a missionary.

The pygmies average only four feet in height. They gorge for several days on antelope and elephant meat, then subsist for a period on roots and herbs.

Members of one tribe among whom he worked were excellent high jumpers—one village record was four inches above the Olympic games mark, he said.

Natives work on roads, carrying rock nine hours daily for 50 cents a month. Disease among the natives is a serious problem, he said.

## Could Have Nice Walk

Little Jewish Girl Gives Her Reason For Liking London

Over in London, says the Windsor Star, a woman recently visited a Jewish family and found there a little girl newly arrived from Germany. "Well," said the visitor, "how do you like London?" Replied the child, "It's so nice to be able to go for a walk without being spat on!" Even the supporters of Nazism can hardly defend this filthy delirium of children.

Joyce: "What do you think father said when I told him I was going to accept you?"

Bertie: "Give it up, old girl."

Joyce: "Well! How did you guess?"

The northern hemisphere has a warmer average temperature than the southern hemisphere.

## New Type Of Grass

Grown By Alberta Farmers, It Is Said To Be Ideal For Golf Courses. A Czechoslovakian grass known by name as "Red Fescue" is providing new export commodity for 10 farmers in the Olds district, north of Calgary.

It is described as ideal for golf course fairways and the farmers are finding a ready market for its seed in the United States.

A "running grass" it has tremendous turf holding power and spreading capacity. It is also a tenacious climber, readily clinging to the side of embankments.

Originally it was brought into Canada from Czechoslovakia by the Dominion department of agriculture in the hopes it might bolster forage crops. It was not altogether successful for this purpose but it was found the "running habit" made it a most suitable golf course grass. "Red Fescue" is classed as "medium" in texture.

Some of the farmers have made sales of seed direct to the United States golf clubs while others have sold indirectly through dealers.

## Empire Unity

Chamberlain Says Empire Should Not Fall Out In Foreign Affairs

An appeal for empire unity on foreign affairs was voiced by Prime Minister Chamberlain at the annual meeting at London of the Empire Parliamentary Association.

Attended by leaders of the opposition parties, the meeting was presided over by Capt. Edward Algerton Fitzroy, speaker of the House of Commons.

"In these days, not entirely by our will or consent," Chamberlain said, "foreign affairs take up the greatest part of our time and attention."

"Well, whatever may be our views about foreign affairs, one thing we shall all agree about, and that is that it is most desirable that the empire should not fall out about foreign affairs."

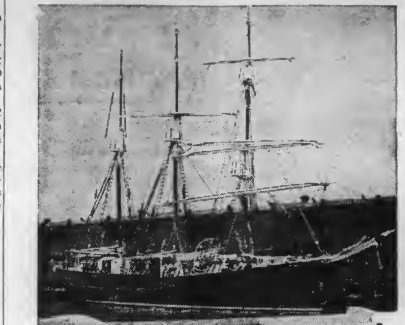

"As far as possible we should present a united front to the rest of the world, for in that way we are likely to exercise a far greater influence than if it were thought that there was not harmony among us."

A JUMPER FROCK THAT'S NEWS  
By Anne Adams

"What's the most popular juvenile fashion?" The answer, of course, is Jumper Dresses—and THIS is the newest, sweetest edition of them all! Get an order in for Anne Adams Pattern 4859 immediately, and you can make up several versions in time for school days as well as current needs. There's a Sewing Instruction included that explains systematically what to do and when—so it's simple to stitch up this jaunty, panel-type jumper, and blouse! For now, choose cotton broadcloth—and for clearer wear, cut into warm flannel or serge. Daughter will beg for plenty of cotton blouse to be "changeabouts!" Pattern 4859 is available in girls' and junior sizes 6, 8, 10, 12, 14 and 16. Size 12 jumper, takes 2 1/2 yards 36 inch fabric; blouse, 1 1/2 yards 36 inch fabric and 1/4 yard ribbon. Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Size, Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

Guatemala set a new high monthly record for banana exports in May when 1,113,203 stems were shipped from that country.

## NO RIVAL FOR HOWARD HUGHES

While Howard Hughes sped around the world on a record-breaking flight, this barkentine, Cap Pilar, reared up in New York on the last leg of a trip around the globe, begun in London in September, 1936. The ship has travelled more than 35,000 miles across the water since it left London. It carries Capt. Adrian Seligman, 28, his bride and a crew of 24 adventure-loving Englishmen.

## Fate Of Motherland

Island Sinking Into The Sea At Rate Of One Inch In Five Years

The public has evinced small interest in the ultimate fate of the motherland, yet within the next hundred years it is expected that Britain's bridges will have to be raised.

The wall of the embankment along the Thames will be so high that pedestrians will not be able to see the river.

Among the victims of the sea, already recorded, are the fortified city of old Winchester, which was a busy port in the 13th century but which now lies seven miles out in the channel and the two Dunwiches, in East Anglia, both of which are submerged off the Norfolk coast.

## Big Game Hunter

Montreal Business Man Returning To Canada After Visit To Africa

Harry Snyder, Montreal business man and big game hunter, is returning to Canada after shooting a world's record elephant and photographing the first albino giraffe ever reported by a white man.

Mr. Snyder sailed for New York with a large number of museum specimens, almost 16,000 feet of motion picture film, hundreds of still pictures and a conviction he should have taken with him to Kenya the eiderdown sleeping robe that kept him warm in Arctic Canada.

Mr. Snyder was at Eldorado, North West Territories, last summer when he announced his intention of going to Africa. For years he had hunted and photographed big game west of the Athabasca and Mackenzie rivers and on the northern slopes of the Rockies.

Young Husband: "My wife seems to make everything an excuse for asking for money. Do wives ever lose the habit?"

Experienced Friend: "Of course they do, old man. Before long she'll ask for it without any excuse at all."

Hard-hearted Butcher: "No, sir! No cheques. I wouldn't cash a cheque for any own brother."

Customer: "Well, of course, you know your family better than I do."

## Oldest Steamer

Built On The Clyde 84 Years Ago, And Still In Service

Melbourne, Australia, is the port of registry for the oldest steamer in the British Empire—the Edina, 171 feet long and 26 feet six inches wide, staunchly built of Lowmoor iron by Barclay, Curle, & Co. on the Clyde 84 years ago. She has survived three strandings and as many collisions, in each of which she sank the other vessel. She is now an excursion steamer on Port Philip Bay.

Originally equipped with sails and steam, she ran between Leith and Hull and later between London and the Crimea. Florence Nightingale was possibly among her passengers. She was in turn a Mediterranean "fruiter" and a North Sea trader.

During the American Civil War she several times ran the blockade, returning with cotton for Lancashire looms.—Manchester Guardian.

## Racial Doctrine

Catholic Churches Describe It As A New Type Of Idolatry

Parish bulletins distributed in all Catholic churches in Rome assailed the new Fascist racial doctrine as "a new type of idolatry."

Referring to the racial theories enunciated by a group of Fascist professors recently, the bulletins said: "The church desires the faithful to be informed of a new type of idolatry threatening to bring Europe to the extreme limit of apostasy and barbarism."

"For Christians a man has worth not only because he is big, blond, strong and handsome but by the nobility of his soul."

"The new religion can only sow hatred, war and persecution."

## At Royal Luncheon

George Tufts, of Niagara Falls, Ont., made an unexpected speech at a civic luncheon in Edinburgh in honor of the Duchess of Kent, to which more than 120 touring Canadian schoolboys had a surprise invitation. Tufts, replying to the toast to the Canadian boys, said: "I am at a loss for words, but we will always look back to this occasion as one of the greatest events of our lives."

The Antarctic region is about 30 degrees colder than the Arctic region.

## SUNDAY SCHOOL LESSON

AUGUST 7

## RUTH: ADVENTUROUS FAITH

Golden text: Thy people shall be blessed and thy God my God. Ruth 1:16.

Lesson: Book of Ruth.

Devotional reading: Psalm 41:1-8.

## Explanations And Comments

A Foreigner In Moab, Bereft of Husband and Son, Ruth 1:1-5. During a severe famine in Judea, Naomi left Bethlehem with her husband and two sons and settled in Moab. There the sons married Moabitesses, Ruth and Orpah, and there father and sons died, leaving Naomi the sole survivor of her family, for her daughters-in-law were to her foreigners. She determined to return to Bethlehem, although she knew that she would suffer poverty and loneliness in her native land. She knew, moreover, that foreigners were not welcomed there, and it would be far from pleasant for her daughters-in-law to go there with her.

At the Parting of the Ways, 1:7-14. In Eastern lands farewells seldom take place in the homes, and Ruth and Orpah carried out the usual custom when they accompanied Naomi to a distance on her way. When Naomi thought they had gone far enough to show her fitting respect she stooped to bid them farewell. She bade each return to her own mother's house, and find a husband in her own land. "Jehovah deal kindly with you, as ye have dealt with the dead, and with me"—thus she void her realization that they would return to her and her sons. She kissed them farewell and wept. When the young women both insisted they would return with her, she reminded them that they could not hope to secure husbands in her land. Orpah yielded, and returned to her father's house. Naomi determined to go with Naomi. Her plea and promise to Naomi have become famous. "Entreat me not to leave thee, and to return from following after thee, for whither thou goest I will go, and where thou lodgest I will lodge; thy people shall be my people, and thy God my God. And where thou shalt dwell I will dwell, and where thou shalt be buried, for to the land of burial thou shalt be buried in a strange land as was abhorrent as it is for the Chinese to-day."

"Jehovah be true to me, and more so, if I should be death part thee and I," was Ruth's conclusion.

## Better Left Alone

Minister Salesmen Are Poor Substitute For Reputable Store

It seems to take some people a long time to learn that it pays to do their purchasing at a reputable store, a store which will be open for business tomorrow and next week and so on.

Toronto has been having experience with salesmen who go from door to door selling rugs, and these rugs were represented as being exceptional bargains because they were the property of people who were "leaving the city," "selling out" or "moving into a much smaller house."

One victim purchased a so-called "genuine Indian broadloom." It was first offered for \$75, but was sold at \$20 at which point the purchaser was certain the bargain was real. Examination by experts revealed that the rug was made of inferior jute and was of little value at any price. The store in your own community are not going to fool you because they want you back again, but the man who sells at the door is making just one call and he knows he will not be doing business with you again. —Peterborough Examiner.

## Payment For Wet Weather

Fund Created For Building Industry In Great Britain

The agreement for payment for "wet time" has been approved at a special meeting in London recently of the National Joint Council for the Building Industry of Great Britain. The agreement provides for the creation of a £2,000,000 fund into which craftsmen will pay sixpence per week, and apprentices and other juniors twopenny half-penny per week. The employers will double each contribution. When, owing to unfavorable weather, the operatives are unable to work, they will receive 50 per cent. of their wages. The arrangement is to come into active operation a year after the payments into the fund begin.

## An Unusual Accident

Baseball Strikes Boy's Hand And Severs End Of Finger

Young Thomas Brady lost a finger while watching a baseball game at Kirkland Lake, Ont. With some chums he had been sitting on top of an iron fence when he decided to jump down. A fly ball was coming toward him as he put his hands down on top of the fence to let himself down. The ball landed squarely on the hand, completely severing the index finger.

The most brightly colored of all large birds is the flamingo.

## Idea Did Not Work

Scheme To Investigate Loch Ness Sea Monster Was Not Popular

So is the news from Glasgow, says the Cleveland Plain Dealer. It appears that the effort of a thrifty and scientifically-minded Scot to incorporate the Loch Ness sea monster is doomed to failure.

The sea serpent of Loch Ness, it will be recalled, has been what the country correspondent would call "almost unique" in his class. Usually a sea serpent is a come-and-go sort of fellow, good for only a single summer's flurry. But the chap up in the shadow of the Highlands has been on the job these three or four seasons. Like some other things Scottish, he is enduring.

It was, no doubt, the persistence of the monster which led one Capt. D. J. Munro, a seafaring man of years and discretion (one is told he went to sea in 1880 at the age of 11) and, being a Scot, a person of unquestioned probity, to evolve the incorporation plan.

His proposed a systematic three-month observation of Loch Ness by responsible person, himself included, armed with cameras, range finders, echo sounders and other instruments. Doubtless the equipment would likewise include a bit of salt to be put on the monster's tail by some intrepid truth-seeker. The results of the observation were to be submitted to a committee of eminent scientists, which would decide once and for all whether or not the Loch Ness monster is or isn't.

Capt. Munro sought 1,500 pounds to finance the summer's search. A truth-loving public was invited to buy one-eighth shares in a limited liability company.

But it appears that the public does not love 1,500 pounds' worth of truth. Only 50 pounds have been forthcoming, far too little to do a thorough Scottish job of truth-seeking by the banks and braes of Loch Ness.

The captain is discouraged, and ready to give up his scheme to apply the scientific yardstick. But perhaps the inkeepers' hall of Loch Ness would just as soon keep the mystery green. And, maybe, the whole incident proves once more that, to give metaphor a geographical journey, the Scots are from Missouri.

## Miscalculated The Date

Michigan Man Had Tombstone Marked But Did Not Die

Willard Hyatt, 84, Burlington, Mich., bargained with death in good faith, but miscalculated.

It started a bit in 1919 when Hyatt decided that Arlo Munaw, monument manufacturer at nearby Marshall, should make him a tombstone. Inscription on the stone should read: "Willard Hyatt—1854-1934." Hyatt was to reach his 80th birthday then and he "knew" the Grim Reaper would call for him. He had reason enough to believe that—his father and mother and his four brothers and seven sisters all died during their 80th year.

The monument was erected and Hyatt began trimming up his burying ground. Death tipped past Hyatt's home during 1934 and so far has kept right on going.

Hyatt explains that "maybe I've switched dates on me, I'll still wait."

## Corrected Arithmetically

Father stopped Mabel's young man as he was leaving the house.

"You've been cutting on my daughter for six months, you fellow. What are your intentions?"

"Well, sir," replied the suitor, "I hope to become an addition to your family." Father shook his head.

"Oh, no, young man. You'll have to subtract, not add."

In England, after winter gales, searchers on the seashores look for crystals, cornelian, amethyst quartz, and other semi-precious stones, to be used in making jewelry.

"If you won't marry me, I'll throw myself in front of the six o'clock train!" "Give me a couple of hours to think it over—there's a train at eight!" —Schweizer Illustrierte, Zofingen.

SHOE HOSPITAL: Bring or mail in your shoes for repair. We use only the best of materials. We'll dye your shoes any color any time.—Steve Bencko, just west of post-office.

### Boost the Hockey Club Carnival

Give a boost for the Coleman Canadians Hockey Club Carnival, they sure give us a boost during the hockey season. If the people will show a little co-operation our team will go over big. These players sacrifice everything they have for the hockey fans, and now is the time for the fans to come to the aid of the players.
